

Create a query that lists each movie, the film category it is classified in, and the number of times it has been rented out. ?

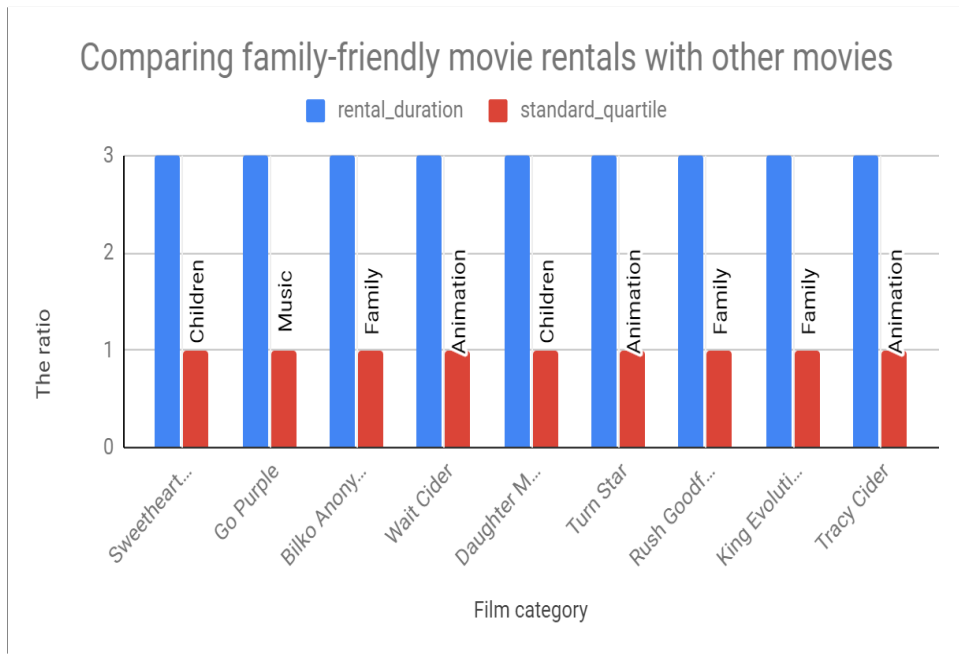

It turns out that a Dogma family

He got the highest rental rate of 30% where he came next

Blackout Private Rental Systems acquired 26%

Desire Allen has a 6% rental rate.

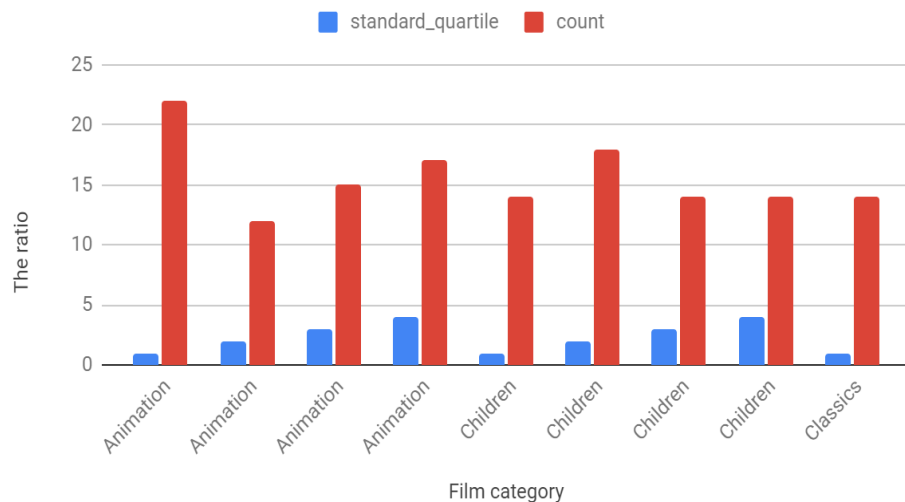

Can you provide a table of movie titles and break them down into 4 levels (Q1, Q2, Q3 and Q4) based on the quarters (25%, 50%, 75%) of the movie rental term across all categories?

We note in the graph that films in the category Family, Kids, Music, Animation, and Animation gave the same average rental duration.

Table with family-friendly movie category, each of the quartiles, and corresponding number of movies

Table with family-friendly movie category, each of the quartiles, and corresponding number of movies

We note from the graph that the animation film took the highest rate at 22 times in terms of the number of rentals and its quarterly value is 1 and also took the lowest rate of animation film rentals at a rate of 12 times the rental and its quarterly value was 2

We want to know how shoppers compare in the number of rental requests per month for all the years we have data for

Compare the traffickers in the number of rental requests during each month for all years

from the graph

It turns out that the year 2005 was full of the number of rentals, and in the month of 7, two shops were able to rent a number of 3367, and at the beginning of 2006 the number of rentals in one shop was 85
